# LEGAL SHRED

We are MSA Certified (Mobile Shredding Association), which means we are subjected to random, unannounced audits by MSA security professionals. MSA auditors review employee background screening and training, compliance with written procedures, access controls, operational security, destruction equipment, and confidentiality agreements.

**Mobile On-Site Shredding:** We offer shredding services for commercial as well as residential consumers. We shred by a large size bin which is similar to a trash can. Our driver will have the bin on the truck. He rolls the bin up to your location, empties your containers containing the documents into the bin, and returns the containers back to you. He then wheels the bin out to the truck. The truck will pick up that bin, and empties the documents into the shredding knives destroying all documents. You are welcome to witness the entire shredding process on a monitor at the side of the truck.

**Routine Shredding:** In addition to one-time purges, we also offer routine services. We have a selection of different size containers to select from. All containers are secured with a lock and a key will be provided to you. Our routine services range from weekly to quarterly, as well as an on-call / demand service. We do not add any unnecessary fuel charges, or pick up fees. We also offer discounts for multiple locations and multiple containers.

**Hard Drive Shredding / Product Destruction:** We offer on-site and off-site hard drive and product destruction as well as electronics recycling. This includes x-rays, hard drives, floppy disks, CDs, DVDs, tapes, flash drives, and various other media devices.

**Paper recycling** is done at Legal Shred. We believe in ensuring the future of our environment. By recycling this shredded paper, Legal Shred saves thousands of trees each year. Also, by recycling the shredded paper you can rest assured that your material is fully destroyed, as it will go through a second destruction process, where it is pulped and turned back into tissue paper.

**Medical Waste Disposal:** Needles, red bag waste, or any other medical waste, we have a solution to fit your needs. We offer one-time pickups or set up a scheduled service and our drivers will be there on the date assigned.
